

BioMax™ Plant Booster

Provide a safe environment for your plants to thrive!

BioMax Plant Booster is a premium soil additive that dramatically increases plant growth. BioMax Plant Booster protects plants by detoxifying soil and providing essential minerals, triggering robust, lush growth while greatly improving yield.

Max out your plant growth with BioMax Plant Booster

Benefits of BioMax™ Plant Booster

- Detoxifies soil of harmful contaminants
- Provides essential nutrients & minerals
- Easy to use, just mix in with current soil
- Protects plants and soil biology
- Improves plant growth and biomass
- Increases yield

Improve your plant growth. Simply add BioMax Plant Booster to your soil to experience the difference.

BioMax Plant Booster lasts the lifetime of the soil and is nontoxic and environmentally friendly. In addition to boosting growth, BioMax Plant Booster effectively removes herbicides, pesticides, and other organic toxins from soil to provide a safe environment for new or existing root systems. Bring peace of mind to your gardening experience knowing that your garden is happy, healthy, and protected.

BioMax Plant Booster... Max out your garden's potential

Scientifically proven to boost growth!
